The IWPA Newsletter is published monthly except June and July.

Please direct all text submissions, including correspondence, articles, PDF photos, advertising and columns to:
Robbie Reed • 2414 26th Ave • Greeley, CO 80634 • Reedtr9@comcast.net (subject line: Newsletter)

The editor and publisher reserve the right to edit all copy, including advertising. The IWPA Newsletter assumes no responsibility for false claims made by the advertiser but will not knowingly print erroneous copy. Requests for permission to reprint material published in the newsletter must be obtained from the author for the material or, if no author is indicated, from the publisher.

Deadline for all submissions to the Newsletter is the 18th of the month prior to the month of publication.

FROM THE PRESIDENT

Terry Reed

Happy New Year,

IWPA Membership, with the New Year comes election of IWPA Board members. You will be receiving your ballots soon. This will be an interesting year for the elections, we have 8 candidates vying for 5 positions. That has not happened for quite some time.

With such a large field of candidates I urge you to choose carefully. The letters of the candidates are in this edition of Pulling Power. Read them carefully and choose those you feel would have the best interest of the organization in mind. And remember per the IWPA Constitution and By-laws ballots are to be in by February 15. I would recommend mailing them no later than about February 7 to make sure they are in.

On another note I have been receiving calls, emails, and personally relayed concerns of dogs in a few regions. I am told there are handlers that have dogs that look very skinny so that they can be in a lower weight class.

In 2005 the IWPA adopted the ASPCA Guidelines for grading a dog's physical condition. These guidelines are for the judges of events to use if a dog is questionable. It is up to the Chief Judge of each event to consider the condition of each dog entered. If you are a judge competing in an event you also have a responsibility to bring these issues to the Chief Judges attention.

I am including these guides from the ASPCA Web page so that everyone is aware of them.

Until next month keep working toward the Championships. They will be here before you know it.

Terry Reed

IWPA President

2015-2016

The following body condition chart as is depicted from the American Society for the Prevention of Cruelty to Animals (ASPCA)

WHAT SHAPE IS YOUR DOG?

A little extra weight can be a **BIG PROBLEM**. Whether it's once a week or once a month, check your dog's body score regularly to make sure he's staying happy and healthy.

1 SCORE

VERY THIN
< 5% body fat

Ribs – Easily felt with no fat cover
Tail Base – Bones are raised, no fat cover
Side View – Severe abdominal tuck
Overhead View – Accentuated hourglass shape

20% below ideal body weight

Consult your veterinarian!

2 SCORE

UNDERWEIGHT
5-15% body fat

Ribs – Easily felt with little fat cover
Tail Base – Bones are raised with slight fat cover
Side View – Abdominal tuck
Overhead View – Marked hourglass shape

10% below ideal body weight

Consult your veterinarian to see if you are underfeeding your dog.

3 SCORE

IDEAL BODY WEIGHT
16-25% body fat

Ribs – Easily felt with slight fat cover
Tail Base – Some contour with slight fat cover
Side View – Abdominal tuck
Overhead View – Well-proportioned waist

Ideal body weight

Great job!
Keep doing what you are doing.

4 SCORE

OVERWEIGHT
26-35% body fat

Ribs – Difficult to feel under moderate fat cover
Tail Base – Some thickening, bones palpable under moderate fat cover
Side View – No abdominal tuck
Overhead View – Back is slightly broadened at waist

10% above ideal body weight

Consult your veterinarian about the right nutrition for your dog and about ways to increase activity.

5 SCORE

OBESE
> 35% body fat

Ribs – Difficult to feel under thick fat cover
Tail Base – Thickened and difficult to feel under thick fat cover
Side View – No waist, fat hangs from abdomen
Overhead View – Back is markedly broadened.

20% above ideal body weight

Extra weight can cause serious health problems for your dog. Consult your veterinarian about the right nutrition for your dog.

BOARD NOMINATIONS

Beverly Detwiler – Region 5:

I am the Manager of Administration and CFO for U.S. Luge Association (the national governing body for the Olympic winter sport of Luge). Also, the IT person and in charge of recruiting, training and coordinating our 110 national and international level Luge Race Officials.

I started out with Siberian Huskies back in 1972. In 1975, I acquired my first Samoyed. I currently have five Samoyeds with the youngest being a fourth generation of my breeding.

In 1990, I joined my local dog club (AHPDTC) in Saranac Lake, NY; a very active obedience club. I was instrumental in bringing breed classes into the club, changing the membership dues structure, revising the bylaws, and setting up sponsored herding events with AHBA. I was the club statistician and awards chair person from 1990 to 2011. I produced its newsletter for 5 years and have been a board member off and on for 9 years, President for 4 years, our fun match chair person for 1 year, and breed chair person 5 years. I am an AKC CGC evaluator and an instructor of our club's dog classes from Star Puppy and beginner through open and rally.

I became a member of IWPA in 1999 on the recommendation of longtime member Dan Plosila. I became hooked with the fun of the fellow members in our region and the dedication of the organization as a whole to the dogs and the sport. About 8 years ago, I became an IWPA Judge. I help the organizers in my region with setup and tear down and enjoy helping out with Novice Clinics. I believe in interacting with our spectators and educating them to what we are doing with our dogs and hope that this leads to them wanting to participate with their own dogs.

I have been an IWPA Board Member for 1 term and would like to serve for another term to assist our members in any way I can.

I have been honored to be on the Board to represent our membership and assist with the goals and direction of the organization and hope that you will elect me.

Thank you,
Beverly

George Ferrari – Region 2:

Hello,

I'm George Ferrari from Region 2, Washington State. I am a past President, Judge Chairperson and Board member, having been a member since Hector was a pup. Which means since 1999. This is an organization that I firmly believe in and would love to represent all our members again on the Board. I would appreciate it, if you would believe in me and give me your vote. Thank you all.

Thanks,
George

Brenda Lemon - Region 11

I would like to be nominated to the board. I have been in IWPA for 15 years, started with my foundation dog Bogie. Many of you may remember him. I am a judge and have even judged at championships. Also have been on the board in the past. I believe in IWPA and would like to see us grow. I would appreciate your support.

Thank you,
Brenda Lemon

Cheryl Martin – Region 9

My name is Cheryl Martin and I am your current treasurer to the board of the IWPA. I have been on the board of directors in past seasons and I would like to have your vote for this election. I have been the treasurer for many seasons, as well as an organizer, judge, and organizer for a prior championship. I would like to be on the board to continue aiding in the integrity and growth of our organization as well as upholding the rules and regulations which govern our long standing organization. Thank you for your consideration.

Robbie Reed – Region 9

Hello Membership,

I'm Robbie Reed, Region 9 member. I and husband Terry have been members with the IWPA since the 1990/1991 season. Through the years, I have volunteered for numerous committees including Working Dog, Grievance, Newsletter, Drug Testing, Standing Rules/Forms, Animal Welfare/Education, Hall of Fame, Regional Coordinator, Secretary to the Board and have served on the Board of Directors as President and Vice President.

I have always worked extremely hard to improve this organization and consistency throughout all Regions. I strive to work for the best interest of the organization as a whole and for its membership. I feel it is everyone's responsibility to protect this great organization's professional standard and to be great ambassadors for this sport.

I ask for your support and vote in this coming election.

Best Regards,
Robbie Reed

Bob Sencenbaugh – Region 9

I got my first dog in 1984, a Samoyed. I immediately discovered dog pulling activities including ski-jouring and dog sledding and weight pull. I have been involved with pulling dogs since then. I became a member of IWPA soon after. I have been serving on the board of IWPA and I am currently serving as your Judges chair. I am a chief judge and an organizer putting on 4 - 5 pulls a year. I have Samoyeds and also put on the Samoyed Club of America National dog pull. I would like to continue to serve IWPA on the board.

Valarie Thawley – Region 11

I've been in IWPA for 12-15 yrs.. I'm not a judge, but have been involved in setting up and running wt pulls. I'm in several different clubs and hold positions on the board and also on a couple different committees within the organizations.

I would like to run for the board. I believe in bringing in a fresh pair of eyes.

I believe in this organization and would like to see it grow and not fizzle out like a lot of others.

Thank you for your support.

Jean Wilson – Region 6

My name is Jean Wilson and I am running for a seat on the IWPA Board of Directors.

I live in northern Michigan with my husband of 36 years and our 2 Mastiffs, and 2 Newfoundlands. I've worked with dogs my entire adult life, focusing on learning how to develop better ways to communicate with my four footed best friends through obedience training, tracking, showing, therapy work and competing in weight pull.

I have been a member of the IWPA through Region 6 since 2010 and this is my second season of judging. In 2010 I entered this sport with my Mastiffs and now compete with my Newfoundlands. For the past 4 years my Newfoundland, Micky has been an ambassador of the sport in local festivals where I've organized pulling demonstrations as well as fun pulls to promote the sport while helping to support our local Humane Societies. This is also my second year of teaching the sport at Camp Dogwood in Wisconsin with another IWPA member and I am thrilled when I bring another puller into the sport. In an effort to peak local interest and expand our local membership, I've started organizing pulls on my property. Micky, my rescue has truly changed the course of my life by taking us to faraway places and allowing us to make more friends through this sport that I could ever have dreamed of. I absolutely love the sport and thrive on educating others about weight pulling and working hard to reverse the negativity that can shadow the sport by those that don't have the knowledge to make an informed opinion. I've pulled in well over 100 competitions, local, regional, national and international with a number of different weight pull organizations and feel I've gained a good, rounded perspective of the sport as a whole. I feel that my passion for the IWPA, my objectivity, professionalism and attention to detail would be an asset to the organization as a whole by me becoming more involved. I would appreciate your vote to allow me to serve you from a seat on the Board of Directors.

Thank you

Jean

FROM THE STATISTICIAN

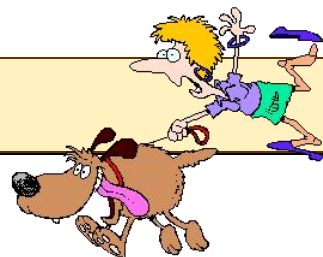

There have been some database issues, so I'm asking everyone to please check the points and standings for your dogs. It is much easier to correct any problems now instead of at the end of the season!!

Thanks for your assistance in this matter!

Sue Ferrari
Statistician

Database issues discovered!!!

Bravo Dog Food Recall

December 2015

December 10, 2015 — Bravo Pet Foods of Manchester, Connecticut, has announced it is recalling select lots of its Bravo Chicken Blend diet for dogs and cats due to the possible presence of **Salmonella**.

What's Being Recalled?

The following product is being voluntarily recalled because of the possible presence of Salmonella.

Bravo Blend Chicken diet for dogs and cats

Item number: 21-102

Size: 2 pound (32 ounce) chub

Best Used By Date: 11-13-16

UPC: 829546211028

201 cases of this product were sold to distributors, retail stores, internet retailers and directly to consumers in the U.S.

The following products **did not test positive** for Salmonella. However, they are also being voluntarily recalled out of an abundance of caution. This is because they were produced in the same manufacturing facility on the same day as the product that tested positive.

Bravo Blend Chicken diet for dogs and cats

Item number: 21-105

Size: 5 pound (90 ounce) chub

Best Used By Date: 11-13-16

UPC: 829546211059

Bravo Blend Turkey diet for dogs and cats

Item number: 31-508

Size: 5 lb. bag of 8 ounce patties

Best Used By Date: 11-13-16

UPC 829546315085

Bravo Balance Turkey diet for dogs

Item number: 31-401

Size: 3 lb. bag of 4 ounce patties

Best Used By Date 11-13-16

UPC 829546314019

These products were sold to distributors, retail stores, internet retailers and directly to consumers in the U.S.

All products tested negative by a third party independent laboratory prior to release for distribution to consumers.

No additional products are affected by this recall.

The company has received no reports to date of illness in either people or animals associated with these products.

What Caused the Recall?

The recall was initiated after routine testing by the Colorado State Department of Agriculture revealed the presence of Salmonella contamination.

The tested product included a single package of Bravo Chicken Blend diet for dogs and cats (2 lb. chub only) made on 11/13/14 with a best used by date of 11/13/16.

What to Do?

U.S. citizens can report complaints about FDA-regulated pet food products by calling the FDA consumer complaint coordinator in your area or go to <http://www.fda.gov/petfoodcomplaints>.

Canadians can report any health or safety incidents related to the use of this product by filling out the [Consumer Product Incident Report Form](http://www.hc-sc.gc.ca/cps-spc/advisories-avis/incident/index-eng.php) at <http://www.hc-sc.gc.ca/cps-spc/advisories-avis/incident/index-eng.php>.

Things to think about...

Submit your ballot so it is received on or before February 15th.

Championships... are you ready to travel?

Do you have all the dogs shot records?

Do you have a letter from the Veterinarian documenting any medication your dog may be taking and that it is not performance enhancing???

Have you verified your dogs points are accurate?

Have you told those important to you, that they are???

Have you hugged your dog today?

Centinela Withdraws Duck Jerky Treats from Stores

December 11, 2015 — Thanks to a tip from a reader, The Dog Food Advisor has learned that on October 16, 2015, Centinela Feed and Pet Supplies of Torrance, California, announced it was voluntarily withdrawing all Welcome Home Duck Jerky and Duck Treats from its stores.

Unfortunately, the company did not include an identifying image of the defective product or any specific batch information with this announcement.

What Caused the Product Withdrawal?

During a routine FDA product sampling, Centinela was notified that trace amounts of antibiotic and antiviral agents not approved for use in poultry in the United States had been discovered in the affected products.

According to the company...

While we have had no reports of pets having been harmed, we are choosing to withdraw all Welcome Home Duck Jerky and Duck treats dated before January 22, 2017.

No further information is available.

What to Do?

Customers were advised to return their Welcome Home Duck Jerky and Duck treats to any Centinela Feed and Pet Supplies store for a full refund or exchange.

For more information, contact Centinela Feed & Pet Supplies at contactus@centinelafeed.com or call 310-212-1000.

U.S. citizens can report complaints about FDA-regulated pet food products by calling the [consumer complaint coordinator](#) in your area or go to <http://www.fda.gov/petfoodcomplaints>.

Canadians can report any health or safety incidents related to the use of this product by filling out the [Consumer Product Incident Report Form](#).

Dave's Dog Food Recall of December 2015

December 1, 2015 — Dave's Pet Food of Agawam, Massachusetts, has confirmed it is voluntarily recalling a single batch of its Dave's Simply the Best Dog Food due to the presence of an "off odor".

What's Being Recalled?

The affected product includes one batch of Dave's Simply the Best dry dog food with the Best Use By date of October 15, 2016.

Why the Recall?

According to Southern Tier Pet Nutrition, co-packer of the product: Customer supplied date code information and retain samples were pulled and tested. Peroxide value was high, indicating rancidity.

Batch documentation was reviewed, and an investigation into the source was initiated.

All lot code information was captured as per batch record.

No outdated materials were used, however it was noted on a subsequent production run of another product that the rice bran being used had an off odor.

This product contains rice bran and could have been the source of the off odor. There was no odor noted during the manufacture of the product in question.

The remaining totes of rice bran were discarded.

What to Do?

U.S. citizens can report complaints about FDA-regulated pet food products by calling the [consumer complaint coordinator](mailto:consumer.complaint.coordinator@fda.gov) in your area or go to <http://www.fda.gov/petfoodcomplaints>.

Canadians can report any health or safety incidents related to the use of this product by filling out the [Consumer Product Incident Report Form](http://www.healthcanada.gc.ca/food-safety/food-safety-report-form).

Hill's Science Diet Dog Food Market Withdrawal of November 2015

November 28, 2015 — According to a notice posted at PetSmart retail stores, Hill's Pet Nutrition is conducting a [voluntary market withdrawal](#) of some of its canned dog foods for reasons unknown.

The following photograph of this announcement was captured at a PetSmart retail location in Naples, Florida. [November 28, 2015]

What's Being Withdrawn?

The following product lines are affected by this event:

- Science Diet Dog Adult Perfect Weight
12.8 oz
SKU 5210092
UPC 5274229750
All Date Codes/All Best Before Dates
- Ideal Balance Slim & Healthy Chicken
12.8 oz
SKU 5210280
UPC 5274230770
All Date Codes/All Best Before Dates
- Science Diet Dog Small & Toy Adult Beef Entrée
5.8 oz.
SKU 5092280
UPC 5274249660
All Date Codes/All Best Before Dates
- Science Diet Dog Small & Toy Mature Beef Entrée

SKU 5117273
UPC 5274270400
All Date Codes/All Best Before Dates
- Science Diet Dog Mature Beef Entrée
13 oz.
SKU 5117275
UPC 5274270560
All Date Codes/All Best Before Dates

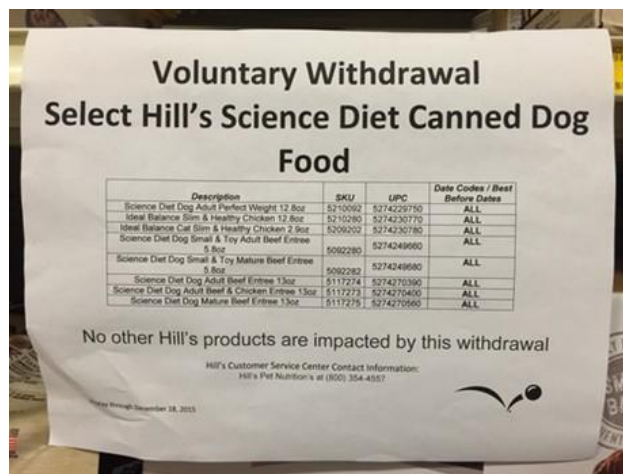

We have been unable to determine the reason for this action or to verify the authenticity of the posted notice. For this reason, no further information is available at this time.

What to Do?

For questions, please contact Hill's Science Diet Customer Service at 800-445-5777 from 8 am to 5 pm CST, Monday through Friday.

U.S. citizens can report complaints about FDA-regulated pet food products by calling the [consumer complaint coordinator](#) in your area or go to <http://www.fda.gov/petfoodcomplaints>.

Canadians can report any health or safety incidents related to the use of this product by filling out the [Consumer Product Incident Report Form](#).

What Is a Market Withdrawal?

A **market withdrawal** is different than a product recall.

[According to the Food and Drug Administration:](#)

Market withdrawal: occurs when a product has a minor violation that would not be subject to FDA legal action.

The firm removes the product from the market or corrects the violation. For example, a product removed from the market due to tampering, without evidence of manufacturing or distribution problems, would be a market withdrawal.

Nutro Dog Treats Recall of December 2015

December 12, 2015 — MARS Petcare has issued a voluntary recall of select lots of its Nutro dog treats due to **potential mold**.

What's Recalled?

The following product is affected by this recall event:

Nutro CHEWY Treats with Real Apples

Size: 4OZ

UPC: 7910511344

Lot Codes beginning with the following numbers and regardless of the Best By date:

4 50

5 02

5 03

5 05

What to Do?

Consumers are asked to stop feeding this product to your pet and to bring any remaining Nutro 4 ounce Nutro Apple Chewy Treats affected by this recall to your nearest PetSmart for a full refund. If you have questions about this voluntary recall, customers are invited to call Nutro Customer Service at 800-833-5330.

U.S. citizens can report complaints about FDA-regulated pet food products by calling the [consumer complaint coordinator](#) in your area or go to <http://www.fda.gov/petfoodcomplaints>.

Canadians can report any health or safety incidents related to the use of this product by filling out the [Consumer Product Incident Report Form](#).

Stella and Chewy's Dog and Cat Food Recall of December 2015

December 11, 2015 — Stella and Chewy's of Oak Creek, Wisconsin, has announced it is voluntarily recalling four of its products sold in the U.S. and Canada due to possible contamination with **Listeria monocytogenes bacteria**.

The recall affects a total of 990 cases — 964 cases in the U.S. and 26 cases in Canada.

What's Recalled?

As a precautionary measure, Stella and Chewy's is voluntarily recalling selected products from **Lot # 165-15, which includes:**

Product Description	Size	UPC	Lot #	Use By
Frozen Stella's Super Beef Dinner Morsels for Dogs	8.5 oz.	186011 001554	165-15	6/25/2016
Frozen Stella's Super Beef Dinner Morsels for Dogs	4 lb.	186011 001370	165-15	6/25/2016 & 6/26/2016
Frozen Duck Duck Goose Dinner Morsels for Cats	1.25 lb.	186011 001455	165-15	6/25/2016

While the following products have not tested positive for Listeria, the company is also recalling the following products which may have come into contact with the affected lot:

Product Description	Size	UPC	Lot #	Use By
Frozen Chick Chick Chicken Dinner Morsels for Cats	1.25 lb.	186011 001448	160-15	7/2/2016
Frozen Chick Chick Chicken Dinner Morsels for Cats	1.25 lb.	186011 001448	152-15	7/2/2016

Retailers and consumers can find the full product recall list and additional information on the company's website; <http://www.stellaandchewys.com/stella-chewys-recall-notice/>.

About Listeria

Listeria is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems.

Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, listeria infection can cause miscarriages and stillbirths among pregnant women.

What to Do?

For more information, customers may contact Stella and Chewy's Customer Service at 1-888-477-8977 Monday through Friday from 8:30 AM to 5:00 PM CT or via email at info@stellaandchewys.com.

Poisonous Household Products

By Sheryl Franklin adapted from the ASPCA Guide

Household Products

Bleach

Pet parents are often curious about the risks associated with cleaning their pets' cages and toys with bleach.

The bottom line is this: cleaning your pet's cage or toy with a properly diluted bleach solution, followed by a thorough rinsing and airing out, is not expected to cause harm. If the odor of bleach seems overwhelming, open windows and use fans to air the room.

There are many cleaning products on the market, with a variety of different ingredients for cleaners, with varying degrees of safety. Always follow label directions for usage. After cleaning, please dispose of unused or dirty solutions, and clean and put away cleaning implements like mops. If you have questions about the appropriate selection or application of a product, please contact your veterinarian or the manufacturer before cleaning.

Carpet Fresheners

Proper use of carpet deodorizing products should not cause significant harm or injury to pets. Should your pet accidentally come in contact with the freshly applied powder, we recommend washing the paws with mild soap and water to avoid minor skin irritation.

Minor ingestions of carpet freshener powder generally results in a mild stomach upset. If a small amount is inhaled, minor respiratory irritation may occur, resulting in sneezing, coughing, or a runny nose. Because of this, it is a good idea to continue to keep your dog out of the room until after you have vacuumed up the powder.

Carpet Shampoo

Most carpet cleaning products can be used in pet households. Allow the carpet to dry before allowing pets into the area. This will help to prevent the risk of skin irritation or gastrointestinal upset.

Essential Oils

Cats are especially sensitive to essential oils, and effects such as gastrointestinal upset, central nervous system depression and even liver damage could occur if ingested in significant quantities. Inhalation of the oils could lead to aspiration pneumonia. There are significant variations in toxicity among specific oils. Based on this, we would not recommend using essential oils in areas where your pets have access, unless pets are supervised or the use of the oil is approved by your veterinarian.

Fabric Softener Sheets

Fabric softeners contain cationic detergents. These detergents have the potential to cause significant signs like drooling, vomiting, oral and esophageal ulcers and fever. These clinical signs do require treatment by a veterinarian. Oral ulcers can develop if a pet chews on a new, unused dryer sheet. Used sheets have minimal amounts of detergent. If an animal ingests enough sheets, used or dry, an intestinal blockage may occur.

Febreze

Contrary to rumors alleging that Febreze causes serious illness or death in pets, our veterinary toxicology experts at APCC regard Febreze fabric freshener products to be safe for use in households with pets.

As with any product, it is important that you always follow label instructions for use. However, should your pet accidentally come into contact with Febreze when it is still wet, we would not anticipate problems beyond mild skin irritation (which can occur with any product in animals with sensitive skin) or minor stomach upset, if it is ingested.

Grout

Gout sealers vary widely in toxicity, from non-toxic to alkaline corrosive. Alkaline products, like cationic detergents, can cause drooling, vomiting, oral and esophageal ulcers. Confirm the ingredients in the brand you are using, and call the APCC or your veterinarian if your pet ingests some of the sealer. Dried, or cured, sealer generally only causes a mild upset stomach if ingested.

Swiffer Wet Jet

Swiffer Wet Jet products do not contain cleaning agents in large enough quantities to present serious health risks to pets. An internet rumor once alleged that these products contained anti-freeze and were responsible for the death of a dog. Our toxicology experts evaluated the product and determined it doesn't contain ethylene glycol from antifreeze, and is appropriate to use in homes with pets.

Like any product, however, it's important to read and follow label instructions to avoid unnecessary exposure. As with any number of cleaning products, mild skin irritation or stomach upset may occur if pets walk through a still-wet floor or lick any spilled solution.

Toilet Cleaning Tablets

Most toilet bowl cleaning tablets would not be expected to cause problems beyond minor stomach upset, should a dog take a drink of the diluted water in the toilet bowl. Bacterial-related gastrointestinal problems could occur from drinking stagnant toilet water, however, so it is still a good idea to discourage your dog from imbibing from the commode.

Vinegar and Water

A solution of vinegar and water is used as an inexpensive alternative to commercial cleaning agents. Vinegar is typically acidic, and vinegar (depending on the solution concentration) acts as an irritant. Ingesting concentrated, or undiluted, vinegar can cause vomiting, diarrhea, oral irritation and pain.

Most cleaning agents can be used safely in homes, as long as label recommendations are followed.

Human Medications and Cosmetics

Adderall

Adderall, as well as many ADD drugs, contains amphetamines, which stimulate the central nervous and cardiovascular systems. Amphetamines can be very harmful or even deadly to pets if enough are ingested, potentially causing hyperactivity, tremors and seizures, fever, abnormal heart rate and rhythm, coma and even death. Please consult your veterinarian immediately if your pet has ingested one of these medications.

Petroleum Jelly

Petroleum Jelly is a laxative. If a sufficient dose is ingested, diarrhea is likely, and in some cases, vomiting may occur. There is a small risk of aspiration pneumonia if the pet inhales some of the product.

Aspirin, Baby Aspirin

We frequently hear from pet parents who are curious to know if low doses of these medications are safe to use on their pets as a joint and general pain reliever. There are medical conditions where aspirin is a recommended treatment. However, overdosing can result in medical conditions ranging from gastrointestinal upset to liver failure. We strongly advise owners to never give their pets any medication without first consulting with their regular veterinarian. Many drugs, including aspirin, can cause serious or potentially life-threatening problems, depending on the dose involved.

If you feel that your dog needs pain relief for any reason, we highly recommend that you get in touch with your veterinarian—if you have not already—so that your dog can be evaluated. Your vet can direct you regarding the best dose to use or, if necessary, can prescribe a different pain reliever. With advances in veterinary medicine, arthritis and other joint conditions are typically treated with more than one medication and treatment (like lasers).

Avon Skin So Soft

We've received a number of inquiries about whether household items like Skin So Soft are safe alternatives to flea prevention regimens prescribed by a veterinarian. We recommend you consult your veterinarian before trying any household products for flea prevention purposes. A vet-recommended flea prevention product will likely be more effective and safe.

Bar Soap and Face Wash

Most bar soaps and face cleansers contain detergents, which, if ingested, can cause gastrointestinal irritation (including vomiting and diarrhea). If the soap also contains essential oils (such as lavender, for example), it is possible that minor central nervous system depression could occur, depending on the concentration of oils and other circumstances of exposure. Certain soaps are made with glycerin or other emollients, which can have a cathartic effect—causing loose stools or diarrhea. If gastrointestinal signs become persistent, they could lead to dehydration. If a large portion or entire bar of soap were to be ingested, it could potentially lead to obstruction in the animal's gastrointestinal tract. Because of these concerns, we advise keeping your soaps and cleansers in an area that is not accessible to your dog.

Breath Fresheners

Human breath mints and breath fresheners are not safe to use on your dog. Certain breath strips contain menthol, which can be irritating to the tissues of the mouth and the gastrointestinal tract. Some breath-freshening products could also contain the sweetener xylitol, which has the potential to cause a sharp drop in a dog's blood sugar, resulting in depression, loss of coordination and seizures; in some cases, this could even result in liver damage. If you wish to control your dog's breath problem, we recommend talking with your veterinarian to discuss a safe and appropriate oral hygiene pro-

gram.

Cigarettes and Nicotine Patches

Cigarettes and other tobacco products contain nicotine, which has the potential to produce severe vomiting, depression, an elevated heart rate, decrease in blood pressure, seizures, respiratory failure and, in severe cases, even death.

E-cigarette liquid (known as e-liquid or e-juice) is used to recharge the cartridge for an e-cigarette. The amount of nicotine in these bottles could easily kill a dog if the contents were ingested. Often the liquid is flavored, making the product more appealing. As such, we urge pet parents to keep all tobacco products out of their pets' reach. If accidental ingestion occurs, seek veterinary help immediately.

Grapeseed Oil

Although we have talked about the safety risks that grapes can pose to pets, we have no data indicating risks from exposure to grapeseed extract or oil. Most nutritional supplements and other products containing grapeseed oil or extract contain relatively small amounts, and we've yet to note any serious problems.

Ibuprofen and Naproxen

Non-steroidal anti-inflammatory drugs (NSAIDs) include over-the-counter medications like ibuprofen and naproxen. Pets metabolize and eliminate these drugs differently than humans do. Because of the difference in elimination, even small amounts can cause significant medical problems in dogs, including gastrointestinal ulcers and kidney failure. Please consult your veterinarian before giving any over-the-counter medications for pain.

Kaopectate and Pepto Bismol

These products contain salicylates, which are similar to aspirin. Depending on the circumstances of exposure, large enough doses of bismuth salicylate could cause effects similar to aspirin poisoning. These include gastric irritation or ulceration, bleeding problems, seizures and liver damage.

If you suspect that your pet may have an upset stomach, or may not be feeling well, do not administer either of these (or similar) medications without consulting your veterinarian.

Mosquito Repellent

Pet owners should never use any product on their animal that is not specifically created for them. Certain mosquito repellents that are made for human beings contain DEET (N, N-diethyl-meta-toluamide). The use of DEET on pets is not recommended, as dogs and cats are very sensitive to

it and may develop neurological problems (such as tremors, seizures and death) if the product is used on them.

If you want to keep mosquitoes away from your dog, we suggest asking your veterinarian for an appropriate product to use.

Pseudoephedrine (and other nasal decongestants)

Depending on the circumstances of exposure, pseudoephedrine can be very harmful or even deadly to pets, and therefore we would not advise giving it to your dog. Decongestants are frequently found in products that contain antihistamines. If your veterinarian has prescribed an antihistamine, please read the label carefully to be sure that the only active ingredient is the one your veterinarian recommended.

Sorbitol

Sorbitol is a plant-based sugar alcohol that's used as a sweetener in many products, including sugar-free foods, laxatives and other medications. Due to its laxative capabilities, loose stools or diarrhea can occur if consumed in large doses.

However, the amount of sorbitol in pet toothpaste used for brushing your pooch's teeth is not likely to be an issue.

Topical Creams/Ointments

As with lotions and oils, pet parents should use caution after immediate application of topical creams and ointments to their own skin. Always read the label so you know which ingredients are included. Some ingredients found in creams and ointments can cause serious, even life threatening, clinical signs. The following are ingredients that can cause serious clinical signs requiring medical intervention: baclofen, flurbiprofen, diclofenac, ketamine, lidocaine, dibucaine, 5-fluorouracil, calcipotriene as well as others. In some cases, small exposures (such as a pet licking the owner's skin after recent application of the product) have resulted in severe clinical health and gastrointestinal issues. When applying these products, keep your skin covered and wear gloves during application or wash your hands thoroughly following use.

Please remember that this guide is for general information only, and is not intended to help assess or manage animal exposures, or any subsequent time-sensitive medical issues. **If you suspect your pet has been exposed to any poisonous substances, contact your veterinarian or call APCC's hotline at (888) 426-4435 immediately.**
