# HAPPY NEW YEAR!

FROM THE PRESIDENT

Terry Reed

Happy New Year. I hope you all had a great Christmas.

Can you believe we only have 3 months left in this season. And in about 4 months the Championships will bring the season to a close.

With that in mind keep watching your points. Be sure your dogs names are listed consistently. And bring up any discrepancy to the statistician ASAP!

In closing I would like to thank you all for supporting *IWPA*.

Terry Reed

*IWPA* President

Together we can build a better *IWPA*

## BOARD NOMINATIONS

Hello IWPA Members,

I'm Diane Krupski, from Michigan Region 6. I've been a member in this organization since 1998! I know seems like a lifetime! I have truly enjoyed this club. I have served on this board before, as well as now. I have loved making friends far and near along the way. Please consider me again to serve you and let your voices be heard.

Thanks for reading,

Diane Krupski

Hi I'm Stephanie Stoll with region 6. Most of you will remember me as the one from Michigan with Saint Bernards, but I've been honored to have pulled many rescued dogs in many different weight classes over the years. I would like to be considered to serve as an IWPA board member for the next term. I have been appointed to the IWPA Board for the last two seasons, and have served as an elected board member in my earlier years of being an IWPA member. I feel I am able to bring new ideas and different opinions to our board. I have been involved with IWPA for 20 years attending numerous local pulls, several out of region pulls, and many Championships. I have also organized pulls, assisted with organizing pulls, and assisted with our region hosting Championships. I have also gotten my Judging certificate, been chief judge at local pulls, and also been elected for Championship judge in the past. I would love to continue to help this organization grow, and improve. Please consider me for a board member.

Thank You,

Stephanie

Hi I'm Shirley Webber, from Northern MI, region 6. I have been weight pulling since 1994. I began my career of IWPA weight pulling after my mom died and was looking for an activity to fill that void. I attended Kalkaska Winterfest and entered my dog into the weight pull contest and was hooked from that day on. In the past I've been a board member several time, organized pull, hosted Championships, assisted with organizing of Championships, and have my judges certificate. Please consider me for the IWPA board. I feel that I can make a difference and have the ability to see both sides. I will take any concerns to the board that arises from our members.

Thanks,

Shirley

Hello IWPA Members,

I was excited to join the IWPA in Jan 2009 after weight pulling since 2004. The IWPA allowed me to expand my pulling opportunities. I am very disheartened at the recent lack of activity in Region 4, of which I am a member and have been for nearly 13 years. As such, I wish to become more active at the organizational level to try to promote and contribute to the organization as a whole. I recently volunteered to be Region 4 representative. I am always willing to help those interested in the sport to get started in it, to work with dogs to help them figure out what the sport is all about and to help their owners work with their dogs. I also hope to become a judging apprentice by the end of the year.

If voted in as a Board member, I will make myself available for questions and concerns, promptly respond to correspondence and do my best to promote the continuance of the IWPA.

Connie Meech  
St. Louis, MO.

# Preventing Winter Health Risks

Adapted by Sheryl Franklin (from dogsnaturallymagazine.com and dogster.com)

First ... let's talk about two serious cold weather conditions that you should take care to prevent.

## Frostbite

Frostbite begins when the dog's body gets cold. The body automatically pulls blood from the extremities to the center of the body to stay warm. The dog's ears, paws or tail can get so cold that ice crystals can form in the tissue and damage it. The tricky thing to remember about frostbite is that it's not immediately obvious. Watch for signs of pale or grey skin; the skin may also turn hard and cold. As frostbitten areas warm, they can be extremely painful. Severely frostbitten skin will eventually turn black and slough off.

## Hypothermia

A second serious winter weather concern is hypothermia. This occurs when a dog spends too much time in the cold, gets wet in cold temperatures or when dogs with poor health or circulation are exposed to cold. In mild cases, the dog will shiver and her ears and feet may grow cold. As hypothermia progresses, she may show signs of depression, lethargy and weakness. As the condition worsens, her muscles will stiffen, her heart and breathing rates slow down, and she will not respond to stimuli. Severe hypothermia is life threatening.

Protecting your dog from frostbite and hypothermia is essential, so learn how to recognize the signs that your dog needs to come indoors to warm up.

## Is your dog cold?

**If your dog is a northern breed, they can bear winter weather much better than non-northern breeds. The bulk of the warnings in this article are for non-northern breed dogs.** If it's too cold for you to stand at the door without your coat, it's probably too cold for your dog too, so pay attention to her behavior while she's outdoors. If you notice your dog whining, shivering or appearing anxious, or she stops playing and seems to be looking for places to burrow, then it's time to bring her in.

## 17 Ways to Protect Your Dog in Winter

### 1. Let's talk temperature!

Some dog breeds are blessed with thick fur that keeps them warm naturally, even in very cold temperatures, but dogs with thin coats may need to wear a sweater or coat when out for winter walks. A good coat should reach from the neck to the base of the tail and also protect the belly. But remember that coats will not prevent frostbite on the ears, feet or tail ... so even with a cozy coat, don't keep your short haired dog out too long in freezing temperatures.

### 2. Go outside when the sun shines

If your dog feels the cold, try to walk her in the late morning or early afternoon hours when temperatures are a little warmer, and avoid early morning or late evening walks. Spend time playing outdoors while it's sunny; sunshine brings the added benefit of providing both you and your pet with vitamin D. Play fetch with toys, not sticks, which can cause choking and other injuries. So, if your dog likes to chew and chase, pack a Frisbee, ball or other safe toy and play together in the sun.

### 3. Limit outdoor time in winter

Your family pet may love to spend time outdoors but in winter even the furriest dog can get cold. Ears, paws and tails are all susceptible to frostbite. Take your dog out frequently for walks, exercise and play ... but when the temperature drops, don't leave him outdoors for long periods of time. A good rule is to go out with him and when you're ready to come in, he probably will be too. If he's outside in your yard by himself, check often to make sure he's not showing signs of feeling cold.

### 4. Cozy bedding

In addition to limiting your dog's time outdoors on cold days, don't let your pooch sleep on a cold floor in winter. Choosing the right bedding is vital to ensure your dog stays warm. Warm blankets can create a snug environment; raised beds can keep your dog off cold tiles or concrete, and heated pet beds can help keep the stiffness out of aging joints. Place your dog's bed in a warm spot away from drafts, cold tile or uncarpeted floors, preferably in a favorite spot where she sleeps every day so that the area doesn't feel unfamiliar.

### 5. Protect your dog from heaters

Dogs will often seek heat during cold winter weather by snuggling too close to heating sources. Avoid space heaters and install baseboard radiator covers to avoid your pet getting burned. Fireplaces also pose a major threat so please make sure you have a pet proof system to keep your heat-seeking pal out of harm's way!

### 6. Moisturize

Dry and cold weather can do a number on your pet's skin. Help prevent dry, flaky skin by adding a skin and coat supplement to her food. Coconut oil is a good natural moisturizer that can help keep your pet's skin and coat healthy. If you find your pet's paws, ears or tail are dry or cracking, you can also apply coconut oil topically as needed.

### 7. No overfeeding please!

Although dogs may need an extra layer in winter, make sure it comes from a coat and not a layer of fat. Cold temperatures may even bring on lazy behavior and the need for fewer calories. Be attentive to your dog's activity level and adjust her calories accordingly. A high quality, whole foods, preferably raw meat based diet will help ensure a healthy coat and good energy for the cold winter months.

### **8. Keep your dog hydrated**

Dogs can dehydrate just as quickly in winter as summer. Although many dogs eat snow, it's not an adequate substitute for fresh water. If your dog spends time outdoors in your yard, make sure she has access to a water bowl, check it often and break ice that forms on top.

### **9. Groom your dog**

Your dog needs a clean, well-groomed coat to keep her properly insulated. This is especially important if your dog spends a lot of time outdoors. After bathing, dry your dog thoroughly, especially before allowing her outside.

### **10. Paw care is a must**

Just as we tend to develop foot cracks in winter, dogs can also suffer from cracked pads. If your dog has furry feet, trim the hair that grows between her pads to prevent ice buildup between the pads. Winter salt on city sidewalks can also burn your dog's pads and is toxic, so after walks around the neighborhood, rinse or wipe your dog's paws to remove any salt – you don't want her licking it off. If your dog shows signs of discomfort when walking outside on frozen or salted surfaces, consider using dog booties to protect her paws.

### **11. Snow removal**

Snow can be a lot of fun but it can also be dangerous for your dog. Snow piled near fences offers your dog escape routes that even well-trained dogs often can't resist. When you clear snow in your yard, pile it away from fences to prevent your dog from climbing over. Snow and ice often accumulate on rooftops and if the sun is out or as temperatures rise, this accumulation can slide and injure your dog. If you can't clear the snow from the roof, keep your dog away from the roof overhang to prevent injury.

### **12. Watch where your dog plays**

Although your dog is likely having a great time outdoors, take frequent indoor breaks for water and warming and don't ever stay out too long. If you're walking or playing in unfamiliar areas, keep your dog close. It's easy for her to venture onto unsafe surfaces such as frozen ponds or lakes. These may be covered in snow and not easily visible.

### **13. Keep your dog leashed and away from frozen bodies of water**

Avoid frozen bodies of water and leash your dog around frozen bodies of water. For non-moving water like ponds and lakes, ice must build up to at least 4 inches and be clear (not cloudy, dark or light covered) to be safe to walk on. When it's a moving body of water, like a river or stream, do not walk on it, as just a small crack can break it. Hypothermia happens just seconds after you've fallen in, and there have been plenty of incidences where humans have died trying to rescue their dogs that have fallen in. Keeping your dog on a leash, particularly around frozen bodies of water, can keep you and your dog safe.

### **14. Don't let dog nails get too long during winter**

You may have to trim your dog's nails more often during cold-weather months. "Since dogs spend more time indoors, their paws encounter less friction and their nails get longer," says [Andis](#) Educator and world-class groomer Kendra Otto. "Overgrown nails can contribute to major health issues like sore feet, legs and hips -- and overall discomfort.

### **15. Avoid exposure to toxins**

With winter comes antifreeze. Antifreeze tastes sweet and dogs (as well as some children!) will readily lick or drink it. Antifreeze is extremely toxic and just a small amount can be fatal. Keep your dog out of the garage and off the driveway where she may encounter antifreeze or other harmful chemicals.

### **16. Don't leave your dog unattended in the car, no matter what the season**

Just as cars can get dangerously hot in summer, freezing cold temperatures are equally dangerous for your dog in winter. Leaving the car running involves additional risks, including carbon monoxide poisoning if the car is parked in a garage. Leave your dog at home when you go out to run errands.

### **17. Special care for seniors**

Cold weather will often aggravate existing medical conditions in dogs, particularly arthritis. It's very important to maintain an exercise regimen with your arthritic dog, but be mindful of slippery surfaces and make sure your dog has a warm soft rest area to recuperate after activity. If you don't already give your senior dog a natural joint supplement to lubricate the joints and ease the discomfort of arthritis, you may want to consider adding one in winter. Just like people, dogs are more susceptible to other illnesses during winter weather.

Harsh winter weather brings a wide variety of concerns to responsible dog owners. Bitter cold, numbing wetness or biting winds can cause discomfort for that special dog in your life. Paying special attention to your loyal friend's wellbeing during the winter season will ensure that you both enjoy the season to the fullest.

Keep these winter care tips in mind and enjoy everything winter has to offer. And don't forget that winter cuddles with your canine buddy are a great way for everybody to keep warm!
