HAPPY THANKSGIVING!

FROM THE PRESIDENT
Terry Reed

IWPA Members,

We are into November. That means it is time to think about the holidays right around the corner.

This month it all begins with Thanksgiving. We have had several members and friends of IWPA that have had tragic events interrupt their lives in the past few weeks and months.

With that in mind I would like to encourage everyone to be thankful for those in your lives. Be sure to let those close to you know how much they mean to you. Don't take it for granted that they already know. One can never be told enough how much they mean to another person.

Give thanks for all you have.

Have a Happy Thanksgiving.

Terry Reed
IWPA President
2015-2016

FROM THE CHAMPIONSHIP CHAIR

Rodney Martin

Congratulations to Carol Gerke in Region 6. She will be hosting the 2016 Championships in Grand Rapids, MI. Save the dates of May 7th and 8th, 2015. Watch for more information in the official IWPA newsletter as the season progresses.

Rodney Martin
Championship Chair

WANTED BOARD MEMBER NOMINATIONS

Are you willing to listen to the Membership, vote for the good of the Membership, work for the Board of Directors year around, look at all sides of every issue that comes before the board and attend the annual board meeting?

If you are, than perhaps you should consider a nomination for the *IWPA Board of Directors*.

Those interested in filling a position of the Board of Directors should submit a letter of intent to Beverly Detwiler Elections Chair Person. You can submit by e-mail to Beverly at

“kolfinnaSamoyeds@verizon.net” or submit it to her at her mailing address;

Beverly Detwiler
P.O. Box 1148
Lake Placid, NY 12946

There will be 5 board positions to fill. So, submit your letter of intent as soon as possible. All nominations should be posted in the December issue of the *IWPA Pulling Power Newsletter*. Ballots will be mailed out by January 5th, 2016.

Retractable (Flexi) Leash Dangers

By Sheryl Franklin

1. The length of retractable (flexi) leashes, some of which can extend up to 30 feet, allows dogs to get far enough away from their humans that a situation can quickly turn dangerous. A dog on a retractable leash is often able to run into the middle of the street, for example, or make uninvited contact with other dogs or people.
2. In the above scenario, or one in which your dog is being approached by an aggressive dog, it is nearly impossible to get control of the situation if the need arises. It's much easier to regain control of – or protect – a dog at the end of a six-foot leash than it is if he's 20 or so feet away at the end of what amounts to a thin string.
3. Very dangerous to take your dog to the pet store on a retractable leash. I've encountered a small dog 2 aisles away from its owner, barking at my controlled malamutes. This could've ended badly.
4. Veterinarians have reported dog injuries as a result of a dog proceeding its owner into the waiting room. Reported by one vet "I actually think his owner was still 20 feet outside the hospital when a dog-fearful terrier mix did what any other frightened dog would do under the circumstances: She bit him on the snout." More and more veterinarians now have signs at the door stating "No Retractable Leashes, Please". They are legally responsible for what happens under their roof and don't want the consequences of dogs on retractable leashes.
5. The thin cord of a retractable leash can break, especially when a powerful dog is on the other end of it. A strong, good-sized dog can take off at full speed, and the cord can snap. Not only can that put the dog and whatever he may be chasing in danger, but also the cord can snap back and injure the human at the other end.
6. If a handler gets tangled up in the cord of a retractable leash, or grabs it in an attempt to reel in their dog, it can result in burns, cuts, and even amputation. Additionally, many people have been pulled right off their feet by a dog that reaches the end of the leash and keeps going. This can result in bruises, "road rash," broken bones, and worse. In April 2011, a man from Jupiter, Florida, lost his thumb when he took his 25-pound pup out for a walk and the retractable leash got caught in his hand. From Consumer Reports: "Heather Todd didn't bring a leash with her the day she took her pooch Penny to a pond near Boston in 2005. So she borrowed a retractable dog leash to help keep her Labrador retriever in check. But it didn't. The 90-pound dog suddenly took off running and dragged Todd across the sand. When she came to a stop and recovered her wits, she spotted something lying on the sand. With horror, she realized it was a human index finger; with greater horror, she realized it was her own. The cord of the retractable leash had looped around her finger and pulled taut when Penny bolted." Just two of many reported injuries.
7. Not only can retractable leashes burn & hurt us, they can also get twisted around a dog's neck or legs. Worse, if your dog panics and jerks the moment they get hog-tied; it could cause the leash to pull even tighter. Although you can loosen the cords that have wrapped around his neck, the situation could quickly become life-threatening. Recently, a dog's trachea was ripped open by the intense jolt of the retractable leash when the handler tried to pull the dog back from the street.
8. Retractable leashes can wrap around a dog's leg and cause much more serious injury than a traditional leash. If the handler tries to retract the leash, the leash naturally becomes tighter around the victim.
9. Some dogs have received terrible injuries as a result of the sudden jerk on their neck that occurs when they run out the leash, including neck wounds, lacerated tracheas, and injuries to the spine.
10. What if the collar breaks or comes off your dog? The moment this occurs, the leash could retract at top speed while the other end of the line whips around at the same full momentum leading to serious injuries to face, teeth, and eyes. These are reported injuries, not 'what if' scenarios.
11. Retractable leashes allow dogs more freedom to pull at the end of them, which can look like aggression to another dog who may decide to "fight back."
12. If the handler loses total control and drops the leash, the dog can get spooked as if it's being chased by something. The dragging handle thumps behind the dog causing fear or panic. In one instance, a dog ran up the stairs of an apartment building with the leash trailing behind it, through an open door to the roof, and plummeted off the roof.
13. Retractable leashes, like most retractable devices, have a tendency to malfunction over time, either refusing to extend, refusing to retract, or unspooling at will.
14. Using retractable leashes are often bad manners. While walking 2 malamutes, I've encountered a neighbor with a 10 lb dog 30 feet in front of him, pulling madly within feet of my dogs. The neighbor is shouting "he's friendly", while I try to control my dogs now in prey mode. The neighbor is completely oblivious that his bad manners have turned a peaceful walk into a struggle. He was also oblivious that this could've been deadly for his dog.
15. Dog trainers do not recommend using retractable leashes, as the dog is not learning to walk on lead, but to wander where they wish. From one dog trainer "They should never be used on neighborhood walks or in stores or other situations where there might be distractions that can make a dog suddenly bolt". Additionally, many behaviorists believe retractable leashes encourage pulling and not listening to commands, the antithesis of what leash training is all about.

FIVE QUICK TIPS FOR BETTER LEASH WALKING MANNERS

By the AKC GoodDog! Helpline team

GDH Team, AMERICAN KENNEL CLUB

Aug 11, 2015

1. **Be a tree.** If your dog pulls on the leash, stop walking! Only continue walking once your dog has put slack in the leash. Consider a head halter or front-hook harness if your dog tends to pull.
2. **Don't allow your dog to approach another dog without permission from the owner.** Just because your dog is friendly, doesn't mean every dog is! If the other owner declines, don't get offended or try to force the other dog into a greeting. Remember, that the other dog may be recovering from surgery or an illness; he could be in training; or he may just have had a bad experience in the past.
3. **Pick up after your dog.** Not only is it unsightly and unpleasant to step in, dog waste is a source of pollution for surface water supplies, harboring pathogens like E. coli and giardia. So always pack some dog waste bags when you take a walk!

4. Barking at other dogs. Leash reactivity is a common problem among dogs that don't get enough mental stimulation or exercise. Try trick training and treat-dispensing toys along with longer and more frequent exercise sessions. Fetch, swimming, and running at the park are all great ways to supplement a daily walk.

5. Lunging and barking at passing cars, bikes, and skateboarders. This is often seen in herding breeds. The motion of the wheels can trigger a predator/prey response in your dog and incite him to chase. You can help this problem by redirecting your dog as

soon as he notices a moving object. Create distance by moving away from the object. Redirect your dog with tasty treats and easy "tricks" like sit, down, shake, and following you as you walk backward.

OC Raw Dog Food Recall

September 25, 2015 — OC Raw Dog of Rancho Santa Margarita, California, [is voluntarily recalling](#) 640 lbs. of Chicken, Fish and Produce Raw Frozen Canine Formulation because it has the potential to be contaminated with **Salmonella**.

No illnesses have been reported and no other OC Raw Dog manufactured products are affected.

What's Being Recalled?

The recall is limited to the Chicken, Fish and Produce Raw Frozen Canine Formulations that were packaged into 6.5 lb. Doggie Dozen Patties, 4 lb. Doggie Sliders, and 3 lb. Meaty Rox with the lot number 1819 and "use by" date of 05/05/16. These codes can be found on the bottom left corner of the back of the package.

Where Was It Distributed?

The recalled product was distributed through independent pet specialty stores in the following states:

Colorado
Pennsylvania
Vermont

Why Was It Recalled?

The potential for contamination was noted after routine testing by the Colorado Department of Food and Agriculture.

A sample they collected at a retailer revealed the presence of Salmonella in a 3 lb. bag of "Chicken, Fish and Produce Raw Frozen Canine Formulations" Meaty Rox.

Another sample from the same lot was previously tested by the California Department of Agriculture and it had a negative Salmonella result.

What to Do?

If you are in possession of this recalled product, the company asks that you submit a picture of the package with the lot number to Olivia@ocrawdog.com for verification.

Either **dispose** of the product immediately or **return** it (for a replacement) to the retailer where it was purchased.

Consumers with questions may contact the company at 1-844-215-DOGS (3647) Monday thru Friday 9 AM to 4 PM PST. If you get an automated answering system, the company asks that you leave a message. They will call you right back.
